

# MEMORANDUM

TO: Mona Anita Olsen, Professor  
FROM: Matthew Teng  
RE: Vlog 3 Reflection  
DATE: May 12, 2018

---

This memorandum will discuss what I would have differently if I were to redo this assignment.

For this vlog, I tried a different approach where I used visuals instead of myself just talking to a camera. Unfortunately, the original video maker I used could not set the timing of the slides properly with the animations, so I could not sync audio with the presentation I made. As a result, I had to move the slides I made to PowerPoint to align the audio file I made along with the visuals, but the impact of the vlog was far less than I had wanted.

Consequently, I would have tried to use a different video maker that had more animations and more customization options for the visual impact I wanted. Additionally, I should have appeared physically in the vlog at some point, which is another part of the submission I would change.

Regards,  
Matthew Teng
